## DETAILED ACTION

### *Continued Examination Under 37 CFR 1.114*

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/28/2004 has been entered.

The petition filed 4/29/2004 is moot in view of this Office Action.

### *Oath/Declaration*

The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

At page 2, paragraph 3 of the declaration filed 4/11/1997, applicants state that "It is verily believed that said original patent *may* be partly inoperative under 35 USC §251 for having claimed less than the inventors had a right to claim as explained in detail hereinafter." (Emphasis added.)

Under 37 CFR 1.175(a) "The reissue oath or declaration in addition to complying with the requirements of § 1.63, must also state that:

(1) The applicant believes the original patent *to be* wholly or partly inoperative or invalid by reason of a defective specification or drawing, or by reason of the patentee claiming more or less than the patentee had the right to claim in the patent, stating at least one error being relied upon as the basis for reissue; and"

Further, under 35 USC §251 reissue applies "Whenever any patent is, through error without any deceptive intention, deemed wholly or partly inoperative or invalid, by reason of a defective specification or drawing, or by reason of the patentee claiming more or less than he had a right to claim in the patent"

The conditional phrase *may be* does not satisfy either requirement. The definite phrase *to be* is required.

Claims 1-49 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the oath/declaration is set forth in the discussion above in this Office action.

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251.

### ***Objections and Rejections under 35 U.S.C. §112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 23-26, 29-30, 42-43, and 46-48 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 23-24 and 46 remain indefinite for reciting “an amino acid sequence...”. It is not clear whether the recited sequences must be present in their entirety, or whether the claim might include portions thereof. It is noted that claim 31 has been amended to use the definite article “the”, overcoming this ground of rejection; however, claims 23-24 and 46 have not been similarly amended.

Claim 46 is further indefinite as it is not clear how a fragment of the first or second recited peptides could be encoded by the entirety of sequences (a) or (b) as seems to be required by the claims. Further, the claim as amended is indefinite for having both a broad (fragment) and narrow (fragment that is at least 18 bases in length) limitation.

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by

"such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949).

The remaining claims are rejected for depending from an indefinite claim.

### ***Conclusion***

Applicant is notified that any subsequent amendment to the specification and/or claims must comply with 37 CFR 1.173(b).

Claims 1-22, 27, 28, 31-41, 44, 45 and 49 are allowable.
